EDUCATION

Bachelor of Science in Computer Science | 2022-2026

COMSATS University Islamabad , Wah Campus

CGPA: 3.59

Relevant Coursework: Object-Oriented Programming (OOP), Database Systems, Computer Networks, Information Security, Data Structures & Algorithms, Operating Systems, Visual Programming (WPF/.NET)

EXPERIENCE

ICT Intern - July-2025 - Present

Pakistan Telecommunication Authority (PTA)

- Contributing to the development of E-Diary, a Flutter mobile application with an ASP.NET Web API backend, following Agile methodology.
- Implementing drag-and-drop functionality, REST API consumption, and state management using Provider.
- Collaborating with cross-functional teams to refine user stories, participate in sprint planning, and conduct feature testing.

SQA Intern - July-September 2024

HBL Microfinance Bank

- Performed manual functional and regression testing on banking applications.
- Identified security flaws and validated authentication mechanisms.
- Created, executed, and documented test cases for application features.

TECHNICAL SKILLS

- Programming Languages:** C++, Python, Java, C#, Dart, HTML, CSS, JavaScript, PHP, WordPress
- Database Management:** Oracle Database (SQL, PL/SQL), MySQL, PostgreSQL, Firebase
- Software Development & Frameworks:** Web Applications (ASP.NET, REST APIs, Laravel), Desktop Applications (WPF/.NET, EF Core), Mobile App Development (Flutter/Dart)
- Collaboration Tools:** Git, GitHub, Agile (Scrum)
- Testing & Quality Assurance:** Manual Testing, Functional Testing, Regression Testing, Smoke Testing, Test Case Documentation

PROJECTS

- E-Diary (ASP.NET Web API & Flutter) | [Github](#)**
 - Developed a digital diary system with ASP.NET Web API as the backend and Flutter as the mobile frontend, consuming REST APIs. Implemented drag-and-drop functionality and utilized state management with providers for efficient data handling.
- Bank Management System (C# & Oracle DB) | [Github](#)**
 - Designed a secure banking application using C# (.NET) with WPF forms for the user interface and Oracle Database for backend storage. Incorporated user authentication and basic encryption techniques to ensure data security.
- Event Reminder App (Flutter & Firebase) | [Github](#)**
 - Built a mobile app for event reminders with email & Google authentication, Firebase Authentication, and Firestore for real-time data storage. Implemented CRUD operations for events, push notifications, calendar integration, and state management using providers.
- Real Estate Listing Platform (Laravel, HTML, CSS, JS) | [Github](#)**
 - Developed a full-stack web app for buying, selling, and listing properties with complete CRUD functionality.

TECHNICAL TOOLS & PLATFORMS

- **IDE / Editors:** Visual Studio, VS Code, IntelliJ IDEA, XAMPP
 - **Databases:** Oracle SQL Developer, MySQL Workbench, pgAdmin
 - **Version Control & Collaboration:** Git, GitHub
 - **Testing & QA:** Postman, JMeter
 - **Productivity & Documentation:** MS Office (Word, Excel, PowerPoint)
-

LANGUAGES AND ADDITIONAL SKILLS

- **Languages:** English (Fluent), Urdu (Native)
 - **Additional Skills:** Problem Solving, Research, Teamwork, Communication
-
